

# Hazing forces closing of Delaware chapter

A 70-man chapter, ranked number one on campus and preparing to celebrate its 75th anniversary, has had its charter withdrawn and house closed. That chapter, Delaware Alpha at the University of Delaware, violated Sigma Phi Epsilon's non-hazing by-law.

Delaware Alpha did not take seriously Sigma Phi Epsilon's position on brotherhood development and hazing. It can not be more clear that chapters which do not change poorly designed pledge pro-

grams, and chapters which mistreat pledges, will lose their authority to operate.

The National Board of Directors of Sigma Phi Epsilon is on record with its policy of strict enforcement of the Fraternity's non-hazing by-law. At its August, 1981 meeting, the board met with several chapters, notifying them that their current pledge programs were not acceptable. Should these chapters continue on their present courses, they will lose their charters, and all student

members will face expulsion.

Delegates from our undergraduate chapters adopted a resolution at this past summer's 37th Grand Chapter Conclave, strengthening our policy against hazing, by requiring a chapter's strict adherence to the non-hazing by-law to qualify for the Buchanan Cup (the Fraternity's outstanding chapter award). Chapter presidents and chapter counselors sign the non-hazing document, certifying their chapter's compliance with

the by-law.

For the alumni of Delaware Alpha, it is unfortunate that their chapter will not operate for at least 16 months. When operations resume, it will be with a totally new membership, as a colony petitioning for reinstatement of charter. This is a long and difficult process.

Perhaps the biggest disappointment is that it sets Delaware Alpha back to a beginning status, at a time when it was to celebrate 75 years of operation.

## Alcohol articles win applause

Illustration by Mike Curti  
(Minnesota '82)

Dear Editor:

I wish to thank you for the excellent series of articles on "Alcohol and the Alcoholic" by Dr. Bennett. There is no doubt that this is one of our nation's number one health problems and therefore deserves the attention of all readers of the *Journal*. Dr. Bennett's straightforward approach to helping the recovering alcoholic is right on target.

Unfortunately we often wait too long to recognize the fact that someone close to us is suffering from the disease and

therefore deny its existence until someone either has severe physical problems or has destroyed himself, his family, and his career.

As the medical director for an alcoholism program I can testify to the tremendous impact that delaying treatment of the disease has on all segments of our society. Information, such as Dr. Bennett provides, will hopefully assist people in recognizing the signs of alcoholism in themselves as well as those close to them.

My experience has also been that the misuse of tranquilizers and sleeping pills is as serious a problem as alcoholism and must be dealt with in a similar manner.

I'm pleased to see the *Journal* focus on this type of problem and look forward to more articles on drug and alcoholism abuse.

Sincerely,  
Russell D. Hicks, M.D.  
Southern California '63  
Associate Professor of Medicine  
and Pediatrics  
John A. Burns School of Medicine  
University of Hawaii

Dear Editor:

I am enclosing information regarding my son's new address and would appreciate your sending the *Journal* to him.

I was very much interested in reading the third article written by A.E. Bennett, M.D., on alcoholism. Will you please send me the first two articles that dealt with this subject? This third article is

one of the best that I have read, and I am sure the two preceding this one were excellent, and would be beneficial to us as we deal with families having this problem.

Thank you very much for your cooperation.

Very Sincerely,  
Patricia S. Highsmith  
Administrative Director  
Cheerhaven Schools, Inc.

Dear Editor:

I am a certified alcoholic and drug counselor, and received your July issue, which contained an article by Dr. Bennett, M.D. on the recovering alcoholic. I have been hospitalized and apparently did not receive the first two in the series.

I would appreciate very much if you could send me the two articles on this, as I always save and use articles by other professionals in the field of alcohol and drug abuse.

Fraternally,  
Lt. Col. Earl L. Jolly (Ret.)  
Oklahoma State '38

Dear Editor:

My husband is a Sig Eps and receives copies of the *Sigma Phi Epsilon Journal*. We have very much enjoyed and appreciated the articles on alcoholism, but have misplaced the first and second parts, which we had intended to save. How can we obtain reprints of these first two parts?

Sincerely,  
Mrs. Bruce D. Karstedt

## Update on Sacramento brother's death

Dear Editor:

Following the publication of the article about brother Craig Miller's death in the July issue of the *Journal*, I have received numerous telephone calls from alumni fraternity brothers. Because of the circumstances, I would appreciate it if perhaps you would continue the article. Mary Beth who was killed with Craig, was my daughter and sister of Gerald B. Sowers, also of Cal. Theta (Sacramento State, Class of '83). Craig was Jerry's big brother as a pledge. Mary Beth was also the niece of Richard J. Brown (Okla. Alpha), my fraternity brother.

Mary Beth was an active Alpha Chi Omega at Sacramento State (Class of '81) and a Golden Heart of Cal. Theta Sigma Phi Epsilon meant a lot to Mary Beth, because of my and Dick Brown's favorable memories, but mainly because of her own wonderful experiences sharing fraternity sorority life with the Sig Eps at Cal. Theta. I am sure she was equally influenced in getting her brother into Sigma Phi Epsilon as Dick or I.

I spoke with the District Attorney's office in Sacramento yesterday, the trial date is set for September 14 and should commence near that date. The two suspects are still in jail and have not chosen yet to make any statement. We are all still puzzled as to a motive.

Fraternally yours,  
Hal L. Sowers  
Okla. State '64

## Surprise! Journal re-appears to reader

Dear Editor:

After an absence of over 10 years, and out of the clear blue sky, yesterday I received a copy of the *Sig Eps Journal*! The last time I received one, it was still in the format of a 7x10 booklet.

While my chapter, Penn. Theta (Carnegie Tech) has been expired for many years, I still enjoy reading about some of my friends, even though they are too few. My class was 1930!

Thank you, and I do appreciate receiving it.

Fraternally,  
Robert W. Loos, Sr.  
Carnegie Tech '30

## K.C. Hyatt disaster claims life of Bradley brother

Dear Editor:

It was with great sadness that I report the death of Brother David E. Stover (Bradley '55). Brother Stover was killed in the Hyatt Regency's disaster in Kansas City on Friday, July 17, 1981. Dave's wife, Shirley, was critically injured in the incident and taken to the Truman Medical Center in Kansas City for surgery and treatment.

Brother Stover graduated from Bradley in 1953 with a bachelor of science in mechanical engineering. He was a product design engineer for the John Deere Product Engineering Center in Dubuque, Iowa. He served as the chairman of the Iowa Eta Chapter, Iowa College, during its colonization period, and up to 1978.

Fraternally,  
Robert L. McLean  
Iowa District Governor  
Bradley '50

## "Outstanding group" observer says of chapter

(Editors note: The following letter to the editor is reprinted from the *South east Missourian*, the student newspaper at Southeast Missouri State Univ.)

Dear Editor:

You may find this letter unusual — and maybe not. I had a pleasant experience this past weekend, and I would like to tell you about it.

My company had requested that I relocate from Shreveport, La. to St. Louis, so I'm staying at a St. Louis Motel. About noon on Saturday, things began to happen. Young people started arriving in droves. By 4:00 p.m. there must have been more than 100. They swam, sunbathed, played tennis, laughed, sang and just had a ball.

I asked, "What's going on?"

"It's a group of students from Southeast Missouri State University having a spring formal party and dance," was the answer.

Learning Southeast Missouri was a college in Cape Girardeau and the group was Sigma Phi Epsilon, I was interested and impressed. What an outstanding group of young men and women.

Sunday morning, many of them began to gather around the outdoor pool. They were well-mannered and quiet. They were careful not to interfere and be too noisy. Several of the men periodically pointed the area and picked up cans, cigarette butts, paper, or whatever. I just want the people of Cape Girardeau and the students to know they are an outstanding group and did themselves proud. Thanks for making my weekend more enjoyable too.

Name withheld by request

The *Sigma Phi Epsilon Journal* (ISSN 0097-6563) is an educational journal published quarterly by Sigma Phi Epsilon Fraternity Headquarters, 5800 Chamberlayne Rd., P.O. Box 1901, Richmond, Virginia 23215. Second class postage is paid at Richmond, Virginia. Lifetime subscriptions are \$15 (included in the initiation fee); annual subscriptions are \$15.00; single copies are \$5.00. Member of the American Council on Education and the Council for Advancement and Support of Education.

# In Brief

## New York Kappa pioneers at Daemen College

After just five and a half months as a colony, the men at Daemen College received a charter as the New York Kappa Chapter. Over 200 guests attended the installation banquet on April 11, 1981.

Robert M. Jones (Pennsylvania '41), then a National Director and now grand president, served as the installing officer. Dr. Robert S. Marshall, president of Daemen College, was another special guest that evening.

Other speakers of the banquet included Dr. James E. Seward (SUNY Buffalo '70), district governor, Peter P. Staron, Jr. (Daemen '79), chapter counselor and director of student life at Daemen, and Jeffrey M. Dawson (Cincinnati '80), then regional director.

Three Sig Ep chapters provided the installation theme. New York Epsilon at the State University of New York at Buffalo, New York Eta at Buffalo State College, and New York Theta at Genesee State College.

Sigma Phi Epsilon at Daemen began in October 1980, when 24 men formed a colony. The colony sponsored a dorm olympics competition just two days after colonization.

In November, the colony created a sportsmanship award, to be presented annually at Daemen to the intramural football team that best displayed this quality during the season. In January, the brothers wrote and published the school's first all sports newspaper to promote the athletic program.

The colony held its first rush in February, expanding to 35 members.

Sigma Phi Epsilon becomes the first national fraternity at Daemen College, a coeducational liberal arts college near Buffalo, New York. The school has a current enrollment of 1,500 students.

## "Distinguished professor" a constitutional law expert

Professor A.E. Dick Howard (Richmond '54) has received the University of Virginia's Distinguished Professor Award. The alumni association presents this award each year.

Established in 1966, the award is conferred upon a member of the faculty who, over a period of not fewer than ten years, has excelled as a classroom teacher, shown unusual concern for students, and made significant contributions to the life of the University. Although national recognition and scholarship taken into consideration, "this award is primarily for the master teacher who has directed his or her efforts toward superior instruction and the enrichment of life in the University."

Brother Howard received an unbridled certificate commending him for "the leadership he has assumed in the academic community, and for his consistent preserving the traditions of the University of Virginia."

A professor of law and public affairs at the University of Virginia, Brother Howard was born and raised in Richmond. He graduated from the University of Richmond and received his law degree from the University of Virginia. He was a Rhodes Scholar at Oxford University, a law clerk to Justice Hugo L. Black on the U.S. Supreme Court, and served the law faculty at U.Va. in 1961.

An authority in constitutional law, Professor Howard has written a number of books and monographs.

## Fire damage at Illinois

Fire destroyed part of the roof and gutted the third floor of the Illinois Alpha house at the University of Illinois. No one was injured in the late morning blaze last May.

Two brothers discovered the fire after it started in the fourth floor loft on the building's south end. The fire occurred during a school break; thick smoke prevented the four brothers living there from putting the fire out. In addition to the roof and third floor damage, the first and second floors suffered severe water damage.

Besides repairing the fire damage,

the Illinois Alpha Alumni Corporation will bring the entire house up to current electrical and plumbing codes. The corporation will also add fire escapes to each end of the house.

Total cost will probably exceed \$30,000. While most of the cost is covered by insurance, the National Housing Corporation will loan Illinois Alpha \$25,000 to build the fire escapes.

The Illinois Alpha house was completed in 1926 at a cost of \$80,000, including furnishings. At the time, it was the largest fraternity house on campus.

## Graphics honorary names logo/designer as member

Bruce Blackburn (Cincinnati '61) has been elected to membership in the Alliance Graphique Internationale, world-wide honorary association of professional graphic designers, headquartered in Zurich.

Brother Blackburn is a founder and principal of Danne & Blackburn, Inc., a Manhattan-based design consulting firm. He designed the official U.S. Bicentennial symbol, for which he received the President's Award for Excellence from the University of Cincinnati. He also designed Sig Ep's red heart symbol.

In 1975, his firm was selected as consultant to the National Aeronautics and Space Administration (NASA) to design a logo, outer markings on spacecrafts, and developing a consistent visual identity. The firm is still actively involved with NASA, and serves a growing number of major U.S. corporations, institutions, and government agencies, including the U.S. Department of Transportation, Champion International, IBM, Squibb, Meble, and Dow Jones.

## Chicago honors Skvarla as "preservationist"

Chicago, the windy city, second largest city in the country and a treasure-house of historical landmarks of modern architecture. Mel Skvarla (Illinois Tech '64) appreciates the aesthetic value of Chicago's historic structure as well as their architectural significance.

During last May's historic preservation week, Mel was named "Preservationist of the Year."

While preservation is his avocation, architecture is his vocation, as architectural coordinator for the Federal Reserve Bank of Chicago.

"It's important to create a public awareness that old buildings are worth saving, that they have a real value in terms of their charm, human quality, and ambience," said Mel. Who became interested in landmarks in 1960 when he marched in a picket line in an unsuccessful attempt to save the Garrick Theater in Chicago's Loop.

Mel has served as a board member of many local preservation organizations, including Landmarks Preservation Council of Illinois and the Chicago Architectural Center, and as a member of the national board member of Preservation Action.

Mel has always been an active Sig Ep alumnus, currently serving as alumni board president for the Illinois Beta Chapter at the Illinois Institute of Technology, and as Sig Ep district governor in Illinois.

## General-ly speaking: a Marshall grad earns a star

Colonel Albin Wheeler (Marshall '58) has given up his eagle for a new star.

After 22 years in the Army, Brother Wheeler received his Brigadier General's star last February, in ceremonies at Fort Lee, Virginia.

"It's a great good fortune. I am extraordinarily humble because there are a large number of officers out there with the same qualifications and abilities who were not selected."

One good friend of Brother Wheeler's is Colonel John Corns (Marshall '58). These two Sig Eps not only graduated together, but roomed together while at Marshall. Brother Corns is on the list to become a future Brigadier General.

# The Educational Foundation

## New fund honors Willard Voit

Thanks to the generous student loan fund that Mr. Mary Jo Voit has started in the Sigma Phi Epsilon Educational Foundation, the name, spirit, and commitment of Willard Voit will live on in our Fraternity.

At the 37th Grand Chapter Conclave awards dinner in New Orleans, Louisiana, on Sunday, August 16, 1981, the Willard D. Voit Loan Fund was commemorated. Mrs. Voit received the commemorative plaque and acknowledged, with the 1,000 Sig Eps brothers assembled, the important contribution she and her husband have made to Sigma Phi Epsilon.

Willard Voit was an active and energetic Sig Eps whose spirit and commit-

ment exemplified the very best of what Sigma Phi Epsilon is all about. For a brother of his stature to commit the time and energy he did to Sigma Phi Epsilon often raised questions from those who didn't completely understand. His response was, "I cannot forget that a student loan from our Fraternity helped to make my graduation from the University of Southern California possible years ago. It's more than just nostalgic reasons that some of us 'old grads' hope and work for a better and stronger Sigma Phi Epsilon in the years ahead."

Through the Willard Voit Loan Fund, many, many Sig Eps in the future will complete their education and make an important commitment to our great country.

## Available loan money doubles

The ever increasing cost of obtaining a college education poses a tremendous demand on our undergraduate brothers. This cost, coupled with the new guidelines for federally backed student loans, places a greater demand today than at any time in our history for a well-funded student loan program for Sigma Phi Epsilon.

With the addition of the Willard D. Voit loan fund last fall, the student loan endowments of the Sigma Phi Epsilon Educational Foundation are the Edward F. Bradford Loan Fund — \$16,500, the Willard D. Voit Loan Fund — \$36,000 and the Charles J. Yancey Loan Fund — \$16,000. This total of almost \$70,000 is an important resource. The total loans outstanding at the end of last academic year were \$24,000.

A three-man committee administers the Educational Foundation's student loan program. This committee includes Lynn M. Barber (Cincinnati '65), the university registrar at the University of Cincinnati; Arthur R. Ehrnschwender (Cincinnati '80), vice president of Cincinnati Gas and Electric Company, and the committee chairman; and Dr. Gerald L. Shawhan (Cincinnati '58), assistant vice president for business affairs at the University of Cincinnati.

The committee bases its decisions on awarding student loans on academic performance relative to graduation requirements, analysis of the student's financial position, the quality of his counselors, and the general quality of his application. Juniors, seniors and graduate students may apply.

## Zollinger Award recognizes leaders

Each year, Sigma Phi Epsilon presents the J. Edwards Zollinger Outstanding Senior Award to one brother in each of the Fraternity's 25 districts. Each district governor selects a recipient from among nominees submitted by each chapter in his district.

Criteria include leadership qualities, campus and community contributions,

academic performance and fraternity involvement.

In addition to recognition of the outstanding senior, a \$100 cash award (the Zollinger Leadership Award) is made in honor of the senior to the sophomore brother selected by his chapter as a future leader.

The Zollinger Leadership Award embodies the reason fraternities have endured for more than 200 years—their life passed on to wiser to younger men who assume responsibility for the health and vitality of the chapter.

Brother J. Edwards Zollinger, one of Sigma Phi Epsilon's most distinguished brothers, served on the National Board

of Directors from 1963-1971, and as Grand President from 1967-1971. He also served as President of the Sigma Phi Epsilon Educational Foundation from 1962 until his death in 1976.

Brother Zollinger was an outstanding alumnus who gave without stint of his time and talents to his fraternity.

### "Made to the Outstanding Sophomore in the chapter of the District Zollinger Outstanding Senior"

District	Chapter	Sophomore Recipient
1	Univ. of Connecticut (Iota Alpha)	Richard H. Roman Jr.
2	SUNY Buffalo (N.Y. Epsilon)	Nicholas J. Gierach

## *Alcohol and the Alcoholic*

## America's billion dollar hangover

By: A.E. Bennett, M.D. (Nebraska '16)

(Ed. Note: This is the fourth in our series of articles dealing with alcoholism. The first article (appearing in the December 1980 Journal) outlined some facts about alcoholism and the causes of the disease. The second (appearing in the April 1981 issue) discussed the way an alcoholic thinks, and the physical and psychological damage done by alcoholism.)

The third article (appearing in the July 1981 Journal) helped readers see how they can help an alcoholic. This issue, Dr Bennett talks about the effects of alcoholism on industry.)

An American medical association editorial estimates that 4% to 5% of the employee population has a drinking problem. Secondary results from absences or decreased work production costs industry \$4 billion annually.

This is America's billion dollar hang over.

In the past, managers have largely ignored these problems, or treated them by censure, without offering the victims rehabilitation. Those managers or supervisors in progressive companies, however, who recognize early symptoms of alcoholism in employees, can help before the employees' jobs are jeopardized. These managers get real dividends and save their investment in the employee.

A large number of companies have well established rehabilitation programs and appreciate their value. Those who ignore or fail to understand the disease concept of alcoholism, and simply fire the employee rather than encourage treatment, need enlightenment on how to salvage a useful employee and save money.

What are some of the signs pointing a manager or supervisor to a possible alcohol problem in an employee?

**Hangover absences.** Frequent absences from work, either during the week or especially after paydays or holidays, may indicate an alcoholic problem. Such workers often give odd or improbable excuses for their absence or claim to have a cold, the flu, stomach trouble, or another minor illness. Frequently the employer gives irrational excuses due to alcoholic thinking. Lying is part of the defense and cover up.

**Injuries on the job.** Alcoholics have three times as many accidents because

A black and white caricature of a man with a large head and wild hair, holding a bottle of 'WHISKEY' and a glass of whiskey. The bottle has a face on it, and the man's face is also visible on the bottle's label area.

of poor judgement, faulty coordination or tremors resulting from drinking

**Significant drop in work efficiency.** Alcoholics tend to work in spurts or to be overly careful to avoid accidents, thus wasting time.

**Drinking on the job.** Any evidence of intoxication during working hours, or

illustration by Mike Curti (Minnesota '82)  
odor of alcohol on the employee's breath.  
confirms the problem.

**Changes in personality.** Persons with a drinking problem often display shifting moods (for example, from affability to moroseness), outbursts of anger, sensitiveness to criticism of their drinking, or increased suspicions shown by

resentfulness or sarcasm.

**Problems away from work.** The problem drinker frequently has domestic, financial, or community difficulties. If these problems coincide with psychological or physical evidence of drinking, they indicate a real problem drinker.

**Changes in drinking pattern.** Lack of control over drinking indicates a compulsive alcoholic. For example, that employee will drink more than others, or between rounds, when drinking with fellow employees after working hours. An inability to stop drinking is also an important danger signal.

What can a supervisor or manager do, after spotting any of these signs of an alcohol problem? Have a frank talk with the employee. Show your concern about poor work performance, excessive absences, or other factors you have spotted. State your suspicions of a problem with alcohol, but don't call the person an alcoholic.

If the employee agrees a problem exists, discuss a treatment program. If the employee does not agree, give him or her the responsibility for improving job performance. If performance does not improve in one month, you may have to pressure the person into seeking help, or refer the employee to the company medical department.

Chronic intoxications lead to progressive destruction of the frontal cortex of the brain. Eventually, even small amounts of alcohol result in a loss of control.

The alcoholic generally does not want to drink too much, but once alcohol is in the system, it immediately paralyzes the control centers, and a person is helpless to stop after the first drink. That is why the alcohol addict can never safely take even one drink since the old patterns of compulsive uncontrolled drinking will always result.

The understanding of alcoholism, and its effects on the brain's function, is of extreme importance to all leaders in industry. Alcoholics with brain damage, occupying important positions, can cost management large amounts of money because of progressive intellectual deteriorations. Cases must be diagnosed as early as possible, treated for the organic features of brain disease, and brought into a meaningful rehabilitation program.

**In 1946,  
23 members of Sigma Phi  
Epsilon packed themselves  
into a phone booth.**

**In 1976,  
Micropolis packed 8 inches  
of capacity into a 5-1/4  
inch floppy disk.**

**No one else had ever packed so much into so little.**

[illegible]

### *Alcohol and the Alcoholic*

## The progressive disease: Alcoholic brain damage

**Affects of alcohol on the brain:** Chronic intoxication leads to a progressive destruction of the frontal cortex. Eventually, even small amounts of alcohol will result in loss of control. The alcoholic generally does not want to drink too much, but once alcohol is in the system there is immediate paralysis of the control centers, and the alcoholic is helpless to stop after the first drink.

**Symptoms and findings of the intermediate brain syndrome:** In between acute alcoholic brain syndrome and severe brain-damage syndrome (known as Korsakoff's psychosis) is what I have called the intermediate state of brain damage.

The changes in this early stage are very subtle and resemble neurotic symptoms, but this type of brain damage is still reversible. If a diagnosis can be made at this stage, permanent organic deterioration may be prevented.

I believe that there are thousands of such cases, mostly which go unrecognized. These patients have reached a stage of chronic alcoholism, namely compulsive drinking with permanent

loss of control over drinking.

Symptoms appear to be emotional or neurotic. Personality changes include rationalization of drinking, denial of illness, pathological lying, infantile behaviour, poor judgement, hostility, lack of insight, emotional instability, and lack of insight. The drinking pattern is addictive, dependent, and/or compulsive, usually with daytime solitary drinking.

Physical symptoms include blackouts, withdrawal reactions, and severe hangovers. Fifty percent of the cases suffer from delirious or convulsive episodes.

Psychological tests reveal evidence of intellectual and personality deterioration, impaired power of abstraction, and mental defects. By electroencephalograph (EEG — brain wave examinations), we have found that about three-fourths of the cases show abnormal records. Any abnormal EEG, which is not improved after treatment of the acute brain syndrome, is objective evidence of chronic brain damage.

## An American in Arabia

# Culture Shock in Saudi Arabia

Illustration by Mike Curti (Minnesota '82)

(Ed. Note: Brother Philip A. Stanley is in his second year of an interesting school in Saudi Arabia. This is the first in a series of articles in which Brother Stanley relates his experiences from his first year of teaching.)

By Philip A. Stanley (Montana '86)

After spending 24 years in public education in Idaho and Oregon, my family and I began to search for new horizons. With this in mind, I returned to my alma mater, the University of Montana in Missoula, to interview for employment in education abroad.

The prospects and the interviews were sound and exciting, but were forgotten after a few days. When a call came one evening, almost one and a half months later from Saudi Arabian International Schools with a job offer, I was taken completely by surprise. Our family spent the rest of the next day, but the maps of Saudi Arabia failed to show Jeddah Industrial City where I would be teaching. I had been told it was located 100 kilometers north of Dhahran in the Eastern Province, but no atlas showed it.

I finally located Al-Jubayl, some 200 kilometers across the Persian Gulf in Saudi Arabia known as the Arabian Gulf from Iran. This immediately reminded me of my first year in Saudi Arabia, but I was not sure. I had heard Saudi Arabia was pro-American. I felt little apprehension for our safety. This sense of security has become more and more questionable, as tensions in the Middle East increase at a rapid pace.

The next few months found my wife Jane, my 12 year old daughter, Carina, and me busily preparing for our journey. Then, in the middle of June 1980, our adventure suddenly seemed in jeopardy as I suffered a massive heart attack.

After several days of doubt as to whether I would even survive, I began a long recovery period. Upon discharge from the hospital, doctors gave me only a 50-50 chance of recovering sufficiently for travel to Saudi Arabia. A month

later, the odds were put at 60-40 in my favor, but an angiogram was recommended in early August to make the final determination.

In the meantime, we had moved to Seattle where our son, Corey, had entered dental school. There, I received the good news that I would lead a normal life, and that Saudi Arabia would be on the agenda.

In the middle of August 1980, after spending a week sightseeing in New York and London, we began our Saudi Arabian adventure.

A flight attendant's announcement that alcoholic beverages would no longer be sold gave the first indication of entering Saudi Arabian airspace. Soon our descent began. The view from the plane window showed utter desolation, lack of vegetation, and giant flames leaping into the air. We learned the flames were GOSPs (gas oil separation process, which burned off the natural gas to reach the desired petroleum at lower levels).

Stepping from the plane was like stepping in front of a blast furnace, or as my wife described it, into a laundromat without air conditioning on the hottest day of summer. Apprehension began building. Would anyone meet us? Would we make it through customs?

We had several delays in customs, over-stuffed luggage which refused to close, the customs stamps nothing but chalk marks rubbing off, and questions about cosmetics because they were "wine" colors. Several Saudi Arabian International Schools (SAIS) administrators met us, and one invited us to spend the night at his home.

The next day, we learned the first of our many lessons in patience in Saudi Arabia. We found we would live in a motel while Saudi authorities cleared our temporary visas so we could receive permanent housing. This temporary housing, with the three of us living in one room in a very U.S. like motel, extended for six weeks. This proved an extremely difficult adjustment after leaving our typical spacious U.S. house with three bathrooms.

Our jet lag and even our housing situation seemed insignificant when cultural shock suddenly descended. Adjusting to a life so vastly different

was no easy matter.

We had been told of the many restrictions, such as prohibition of pork and alcohol, and women not being allowed to drive. We also knew expatriate students over grade nine were not allowed in schools, and of certain dress restrictions. In our area, even western women should not wear clothes which show their elbows or ankles, or which emphasize their busts or hips.

No one, however, could prepare us for the cultural shock in moving from an almost totally permissive society, to a religiously controlled monarchy. It is extremely difficult for U.S. citizens to suddenly find they are merely guests in another country, with no guarantee of any rights or freedom, and at times to actually feel threats to their free expression.

For example, we had no idea just how difficult it is for a non-Moslem to obtain a visa for Saudi Arabia. Visitors are not allowed. It is impossible to get our son, Corey, a visa to visit us, as he is above the age limits for a student visa. Each time we want to leave Saudi Arabia, we must obtain an exit-reentry visa, which takes considerable time. We often wonder if, in times of a national emergency, this would be changed.

Only top-level management personnel are allowed family status in Saudi Arabia. Even then, the husband usually spends up to six months alone before his family can join him. Luckily, this restriction does not pertain to educators.

Living with censorship, very prevalent in Saudi Arabia, was also a new experience. The movies shown on the English language television channel are heavily cut with scenes such as men and women embracing, kissing or even holding hands omitted. Although many U.S. and British magazines are available, we need to inspect them carefully before buying, as many pages are often torn out or obliterated. Advertisements for wine or alcohol or those showing men and women touching, are often torn out or marked over completely. And, of course, any magazine such as *Playboy* or any religious publication (other than Islamic) is banned.

Saudi Arabia, strictly an Islamic country, absolutely prohibits any other religion. The Sunni Muslims, a very

strict and fundamentalist reformist sect, dominate the country. In our region, the Eastern Province, there are also Shia Muslims. Because of some serious uprisings by the Shia Muslims in the past, we are told not to travel during their religious holidays. This includes travel even to downtown Jubbail in the evenings, other areas are off limits completely.

The Moslem religion has no formal services. Rather than formal preaching and teaching, it consists of simple daily prayer.

We hear prayer call over loudspeakers five times each day, beginning at day break and ending at sundown. At this time, the very proud Arab Moslem howls to Mecca (now to be changed to the Arabic spelling, Makkah), wherever he stands in the sand beside the freeway, in the busy airport terminals, or in modern mosques being built in profusion throughout the kingdom.

During prayer time, all businesses close, the television stations halt programming, and merchandising ceases. As most stores also close all afternoon, shopping becomes very difficult and frustrating. A few western stores, such as Safeway, post the periods during the day when they will close. Most often, however, the store hours are found by a locked door or if you are in the shop, by having the lights turned off.

Most expatriates live in company compounds separated from the Saudi. The Royal Housing Commission at Jubbail Industrial City where we live, is an exception. The camp is integrated with Saudi families on each side of our house. We see very little of the Saudi families, except for the children playing in the streets. The wives wear the *thumia* (black cape and veil), so we do not even know what they look like. The men and children often speak English, but many women do not. Saudi schools teach English, but only recently have allowed women into the classes. The school systems are always separate for boys and girls, but their curriculums are similar based on the Koran with cognitive rote memory learning.

Brother Stanley's story will continue in January, with some thoughts on how the Saudis have coped with the changes in culture over the past few decades.

# New Orleans News

*Cresole and gumbo; sound like mumbo-jumbo! The Fairmont Hotel's chef mimed nut words as he demonstrated creole cooking to the women attending the conclave. How did he make beans and rice taste so nice?*

*"Brother chairman" The cry came often during the action-packed legislative sessions. Yes, some delegates worked long hours on legislation and other business, even though Bourbon Street beckoned.*

## Special guests highlighted each day

## Mounted escort leads 1,000 to French Quarter

Matt had never attended a conclave. Walking into the Fairmont Hotel was like going on a first date with someone. He knew he would have fun, but still had that gnawing feeling inside that apprehension of expectation yet not knowing what to expect.

Hundreds of members attending their first conclave just like Matt gathered in the Imperial Ballroom for the opening session, along with hundreds who had attended at least one conclave before. The lights faded, almost to darkness. A crescendo of music filled the room; images filled the wall size screen, and the conclave had begun.

At times, the three projector macroprocessor controlled slide program fired images of the seven man gun style. Special effects slides created the illusion of motion. Housing expansion, academic performance, charity fund raising—the program showed Sigma Phi Epsilon's accomplishments of the past two years.

Award presentations took place all weekend, with most occurring at one of the four large gatherings: the opening session, Saturday luncheon, Saturday night theme event, and Sunday awards dinner. Outstanding chapters received their Buchanan Cups during the opening session.

The session ended by nine p.m. so undergrads and alumni had plenty of time to explore the city.

Special guests highlighted Saturday's activities. Eleven Stevens told of her son's death, caused by a chazing incident in upstate New York. It happened during the pledge activities of the local fraternity, Klan Alpine; she's the story else-

where in the conclave portion of this *Journal*.

All 1,000 conclave participants had lunch together, and heard Brother Corwin Denney (Michigan '43) share his views on the country's energy and fiscal concerns. Brother Denney has become one of the nation's leading industrialists since founding Automation Industries after World War II with \$800 of borrowed capital.

Saturday night, Walter Hailey (Texas) had every person in the Imperial Ballroom on the edge of their seats. The "Streets of New Orleans" theme party was the occasion.

Brothers socialized, downed hot dogs and beers, then were treated to a 45 minute program. The conclave chorus sang a jazz band played, and folks started taking their seats.

Brother Walter Hailey took the stage. He talked of warm fuzzies, achieving your potential, and helping others. He captured the audience with his anecdotes, his powerful stage presence, and his "aw-shucks" down home style. One thousand people filled the room, and at times you could hear a pin drop.

Another slide program, with hundreds clapping to the music, followed Brother Hailey, and then it happened!

It started innocently enough. A jazz band entered and circled the room, playing. When the Saints go Marching In! Than a snake dance line began following the band. They circled the room once more, then led the brothers, women and guests down the stairs, out the lobby doors into the streets.

A mounted police escort, with one of New Orleans' main thoroughfares

blocked off, allowed 1,000 Sig Eps and friends to march that five blocks to the French Quarter. "Exhilarating" does not quite describe the feeling.

On Sunday, delegates elected new members to the national board of directors, and a new grand president, Bob Jones. The awards dinner that night had another interesting twist. A Duxeland band led the waters in for the "dessert" portion of the banquet. As the band played the waiters hustled trays of baked Alaska above their heads and weaved among the tables.

Our most highly regarded alumni awards highlighted that evening. We honored six brothers with our highest career achievement award, the Sigma Phi Epsilon Citation.

## Stevens speaks to motivate change

Eileen Stevens' son, Chuck, died of alcohol poisoning while pledging Klan Alpine, a local fraternity at Alfred University in upstate New York. Fraternity members locked Chuck and other pledges in a car trunk and would not release him until he consumed a pint of Jack Daniels, a bottle of wine, and a six pack of beer. All this in nine-degree weather.

She has a powerful story to tell, and she tells it well. Delegates, undergrads, alumni, and women guests listened as the story unfolded at the Saturday morning session.

Five brothers received the Order of the Golden Heart, awarded for "conspicuously outstanding service" to Sigma Phi Epsilon.

As the alarm rang Monday morning, Matt reflected on the past few days. Of course, many other events had taken place. He attended legislative sessions, workshops on chapter operations, and seminars on items like "how to buy stock." There were the beers at Pat O'Briens with the brothers from Colorado, and the dinners with the chapter brothers at various French Quarter spots.

He didn't remember one specific event, as much as an overall feeling. A feeling of belonging, of "fraternity" on a grand scale, and of the variety of persons and personalities that make it all possible.

Mrs. Stevens spoke to Sig Eps in the northeast at the 1980 Regional Leadership Academy, and at the mid-Atlantic Regional in 1981.

Her pro-fraternity, but anti-hazing and anti-abuse stand has surprised many, who first perceived her as "an angry mother." She has told her story to Phil Donahue, Tom Snyder, and, most recently, on a segment of the ABC network's "20/20" news magazine.

Mrs. Stevens' main objectives are to make the public, as well as members, aware of hazing problems by "bringing these horror stories to the surface in order to motivate change."

# New Orleans News

The convalesce chorus made music for entertainment and inspiration all weekend. Herb Ynsner, convalesce chorus director, led the singers at all major events, along with accompanist Dan Walker (chapter president at New York University — New York Gamma).

Dessert sounds out a rich balanced meal at the Fairmont. The doors are flung open, and a jazz band leads a parade of waiters and waitresses around the room. Each person had his or her own way of transporting the baked Alaska, and almost all of the dessert completed the parade right side up.

After the fun and entertainment of the Sunday dinner, the Fraternities presented our two most prestigious alumni awards, the Order of the Golden Heart and the Sigma Phi Epsilon Citation.

## Dedicated f

The Order of the Golden Heart, Sigma Phi Epsilon's highest honor. The gold medallion is conferred upon those few alumni who, over a lifetime, have dedicated to Sigma Phi Epsilon, perform conspicuously outstanding service to our Fraternity.

In our 80 years as a national fraternity, only 83 of our 131,000 members have received this honor. Five brothers honored in New Orleans bring the total to 94.

### Francis W. Barkley (Delaware '32)

Brother Barkley held the most important offices as an undergraduate and thirty years later, came back to guide Delaware Alpha (University of Delaware) alumni board for nearly two decades.

He had led six alumni chapters, pioneered a chapter educational trust, Delaware Alpha, and established a campus wide fraternity alumni structure, gave guidance and stability to the whole Greek system at Delaware.

### Robert M. Jones (Penn '41)

Brother Jones began his volunteer service as a member of the alumni board of the University of Pennsylvania (Penn).

## Saturday

Brother Corwin Denney (Mo '43) came to the convalesce to speak at Saturday luncheon, sponsored by Sigma Phi Epsilon Educational Foundation. He left with the convalesce banner.

At the Saturday luncheon, Brother Denney shared his views of the country's fiscal and energy concerns. He attended the Sunday evening award dinner to receive the Fraternity's highest career achievement award, the Sigma Phi Epsilon Citation.

At the Sunday awards dinner, the convalesce banner is traditionally auctioned off. Several people, and a bid, began bidding. One bidder was Brother Denney.

The auction soon became a d

## Record number Buchanan Cups and newsletters

Sigma Phi Epsilon presents the Buchanan Outstanding Chapter Award every two years at Grand Chapter Conclaves. This Revere bowl, mounted on a base, is given in honor of Edwin Buchanan, who served as Sigma Phi Epsilon's grand treasurer for 44 years.

This award recognizes chapters with outstanding performance in every area of chapter operations including financial management, alumni program, ritual, academics and brotherhood development (pledge program). Twenty-four of our 231 chapters received a Buchanan Cup in New Orleans.

## Fraternity service honored

Delta) chapter. In 1968, he was appointed to the National Housing Corporation, a position he held until 1977, when he was elected to the National Board of Directors.

This past August, after serving a six year term on the National Board of Directors, Brother Jones was elected to a two year term as Grand President.

### Garland G. Parker (Cinn. '37)

Brother Parker served as secretary and president of the Webster Society, a local fraternity at Southeast Missouri State University. Sixteen years later, this local would become the Missouri Zeta chapter of Sigma Phi Epsilon.

Coincidentally, he began his ten-year stint as faculty advisor for the Ohio Theta chapter at the University of Cincinnati in 1955, when he was initiated.

Since then, Dr. Parker has helped in coordinating two Grand Chapter conclaves held in Cincinnati and served on a scholarship committee for the national fraternity for over two decades. He also served on the student loan fund committee from 1960 until 1980 (the last 15 years as chairman).

In 1978, Brother Parker prepared a special report for our national board of directors on enrollment projections and the implications for fraternities.

### Alonzo A. Peters (Montana '23)

It had been half a century since Brother Peters' initiation, and nearly that long since he had actively participated in fraternity affairs. But, a fledgling chapter nearby at Chico State Univ., needed his help. They've received over a decade of hard labor and devotion.

Brother Peters formed, and served on the alumni board for the California Iota chapter at Chico for over 10 years.

### Carl O. Petersen (Muhlenberg '49)

Brother Petersen has served, guided, and led his own chapter, other chapters, and the Sigma Phi Epsilon Grand Chapter for more than a quarter of a century. He has held virtually every volunteer position: chapter counselor, district governor, and alumni board member.

In early 1973, Brother Petersen filled a vacancy on the national board of directors, and was elected to a full six-year term at the Grand Chapter Conclave later that year. As Grand President from 1979-1981, he has been a vocal advocate of expansion, and increasing the quality of our chapters.

One of the most traveled Sig Eps., "Pete" has knocked on the doors of three quarters of our chapters during his 30 years of active alumni involvement.

Alonzo Peters becomes one of only 94 brothers to be honored with the Order of the Golden Heart. Immediate past grand president Carl Petersen performs the honors.

## Speaker buys banner

between Brother Denney and Larkin Bailey (California '23), a past grand president and member of the Order of the Golden Heart. Each bid was accompanied by an "oh!" or "ahh!" from the crowd.

The sums grew, as the bidding leaped \$500 at a time. Brother Denney stuck it out, and bought his banner for \$11,000 (proceeds went to the Sigma Phi Epsilon Educational Foundation). He immediately presented his home chapter, Michigan Alpha, at the University of Michigan with the banner.

Corwin Denney has become one of the nation's leading industrialists. Following service with the Army Air Corps during World War II, he and five others bor-

rowed \$300 to form Automation Industries. The company designed an experimental helicopter.

He built the company into a world wide supplier of industrial products and technical services. In 1978, Automation merged with GK Technologies.

Brother Denney continues to serve as a director of GK Technologies, but now devotes his time to a new business — oil exploration and production. He is chairman and chief executive of Venus Oil Company, based in San Antonio. He is also involved with an oil field equipment manufacturer, and is a major shareholder in the Beverly Wilshire Hotel in Los Angeles.

The "changing of the guard" — immediate past grand president "Pete" Petersen (right) congratulates his new grand president Bob Jones. The two exchanged the gavel in front of the new sculpture at Sunday's awards dinner.

## ter awards highlight Conclave program

**Alumni Program Award** — Presented to the chapter with the best alumni program, determined by frequency of contact, participation in annual alumni event, general quality of program.

1979-1980

Tennessee Alpha — University of Tennessee

1980-1981

Nebraska Beta — University of Nebraska Omaha

**Carter Ashton Jenkins Award** — Presented each year to the outstanding undergraduate Journal contributor. Named in honor of Sig Ep's founder and first initiate.

1980

Buck L. Davis — (Oklahoma State '81)

1981

Michael G. Curtis — (Minnesota '82)

**Charles H. Pafford Award** — Presented at Grand Chapter Conclaves to the chapter exhibiting the best chapter scrapbook. The award is sponsored by the Headquarters staff in honor of Charles Pafford, a member of the staff killed in an airplane crash while on a chapter visitation.

1981

Indiana Delta — Indiana State Univ.

**William A. MacDonough Broadening the Brotherhood Award** — This award recognizes chapters which have helped form a Sig Ep colony, or provide considerable support of an existing colony. The award is a certificate presented

at Grand Chapter Conclaves.

1981

Buffalo State College (New York Eta) for their work with Duquesne College (New York Kappa), and Canisius College only.

University of South Florida (Florida Iota) for their work with St. Leo College (Florida Lambda).

University of California-Davis (Cal Eta) for their work with the colonies at San Francisco State University, the University of San Francisco, and the University of San Diego.

**Man-mile Award** — Presented to the delegation whose members traveled the greatest number of total miles from the chapter. Figured by multiplying the

number of delegates by the number of miles.

1981

Washington Beta — University of Washington

**Bedford W. Black District Man-mile Award** — Presented to the district whose total delegation traveled the most miles to attend the conclave. Named in honor of the long time district governor in North Carolina and former grand president.

1981

District 20 (Nebraska and Kansas)

**Chapter Attendance Award** — Presented to the chapter having the greatest number of registrants at the conclave.

1981

Alabama Alpha — Auburn University

# New Orleans News

## Citation recipients' interests

# Beef and banks

Our fraternity presents the Sigma Phi Epsilon Citation every two years to a small, highly select, group of alumni. These brothers have achieved uncommon success and stature in their professions and fields of endeavor.

Six brothers joined the ranks of Citation recipients at the 1981 Grand Chapter Conclave. Sigma Phi Epsilon has honored 167 brothers with the Citation, since the first presentation in 1965.

**Corwin D. Denney** (Michigan '43) Brother Denney is chairman and chief executive officer of Venus Oil Company in San Antonio, Texas. He founded Automation Industries following World War II, and developed it into a multi-million dollar international corporation.

Acknowledged as one of the nation's leading industrialists, he is a much-in-demand speaker on the free enterprise system and the nation's energy future.

**Robert M. Freeman** (Virginia '63) A native of the city where Sigma Phi Epsilon was born, Brother Freeman is president and chief operating officer of the Bank of Virginia, the largest bank in the state.

He is also a member of the Board of Associates of the University of Richmond, a member of Virginia Governor Dalton's commission on health care costs, and a trustee of the Colgate Darden Graduate Business School at the University of Virginia.

**Henry C. "Ladd" Hitch,** Jr. (Oklahoma State '39)

Brother Hitch is head of the Hitch Family Agribusiness Companies, which include cattle buying, cattle feeding, beef packing, farming, and risk management. Affectionately known as the "Godfather of the Panhandle," he is one of the nation's leading agribusinessmen.

He makes his home in the panhandle of Oklahoma, serves as a Trustee of the National Cowboy Hall of Fame, and is a former regent of Oklahoma State University.

**B.M. "Mack" Rankin, Jr.** (Texas '50)

Brother Rankin and two others formed McMoran Exploration Company in 1967, and later the McMoran Oil and Gas Company. This company merged with the Freeport Companies to become Freeport McMoran, one of the largest corporate mergers in history.

Brother Rankin is an independent oil operator, and an owner and director of the Texas Rangers baseball club.

**Ralph D. Turlington** (Florida '42)

The Commissioner of education for the state of Florida, Brother Turlington has been a leader in improving Florida's public education system. Prior to his appointment as commissioner, he served 24 years in the state house of representatives.

He was an outstanding legislator, receiving more awards for distinguished service than any other legislator in Florida's history. Brother Turlington is a past speaker of the Florida house of representatives.

**Charles N. White, Jr.** (Western Michigan '62)

As Vice President of Dartmouth '80, national director, said in announcing Brother White's award, "This brother does one of the world's toughest jobs and does it better than anyone else, anywhere else. He must manage leaders and lead managers. He must anticipate crisis and maneuver change. He must constantly be creative and constantly have to train them."

Brother White has served as executive

director of Sigma Phi Epsilon since 1976. He first joined the Fraternity's staff in 1962, and traveled full time for two years. After a stint in the Army, and with Proctor and Gamble, he rejoined the staff in

1967. Since he has been responsible for Sig. Ep's undergraduate chapters, our College Survey Bureau quality rating has risen from 57% to 75%, our size from 163 chapters to 231.

# Third student director added

Delegates to the conclave elected a new grand president, two new alumni members, and three student members to the National Board of Directors. The grand president serves a two-year term, alumni directors serve for six years, and student members hold office for two years.

**Robert M. Jones** (Pennsylvania '41) is our new grand president. Bob has just completed a six-year term on the national board of directors.

He has served on his home chapter's alumni board, and was a trustee of the national housing corporation from 1968 until his election to the board of directors in 1977.

Brother Jones received a degree in economics from the Wharton School of the University of Pennsylvania in 1941. After service as a captain and pilot in the U.S. Air Force during World War II, he returned to the Penn. Law School, receiving his J.D. degree in 1948.

Currently retired, he was most recently the president of S.F.I., Inc., a manufacturer of prefabricated building systems.

He has served as vice president of Motor Oil, Champion International, U.S. Plywood, and Philips.

**John H. Stanley, Jr.** (Arkansas '64) was elected to fill the two-year unexpired term created when Harry Fosner ('64 Santa Barbara '70) resigned.

Brother Stanley serves on his home

chapter's alumni board, and has been district governor in Arkansas and Oklahoma for 10 years. He is a past president of the Central Arkansas Alumni Chapter. Professionally, John is a vice president of Worthen Bank and Trust in Little Rock, Arkansas.

**Donald C. McCleary** (Texas '71) also comes to the board from the ranks of the district governors, having served in Texas since 1977. He was elected to a six-year term on the board.

Don began his fraternity career as a very active undergraduate at the University of Texas. He was president, vice president, state rush captain, and alumni relations chairman for Texas Alpha.

After graduating, Don joined Sig Ep's

professional staff as a regional director traveling full-time for a year. He went on to receive a law degree from St. Mary's University in Texas, and joined the firm of Wynne & Jaffe. Brother McCleary lives in Dallas.

**Robert A. Flynn** (Connecticut '82) was elected to a two-year term as a student director. He is currently president of the Connecticut Alpha chapter.

When Connecticut Alpha was rechartered in 1980, Bob was one of the original members. He was homecoming chairman at the University of Connecticut, and lettered on the varsity lacrosse team.

**Douglas A. Reed** (Texas '82) was also elected to a two-year term as a student director. At Texas Alpha, Doug has

held the offices of vice president, state rush captain, and chairman of the ritual and standards committee.

On campus, Doug belongs to the Public Relations Student Society of America, Advertising Club, Young Republicans, and the UT Riquetball Club.

The third student director is **Bryan C. Howarth** (Tennessee '82). Bryan is currently president of Tennessee Alpha. He has chaired the social committee, All-Sing steering committee, Carousell steering committee, and homecoming committee.

On campus, he is a member of the University of Tennessee Marching Band, and the UT Concert Choir. Bryan is also a member of Omicron Delta Kappa leadership fraternity.

## Our history: Toward a century of brotherhood

# Sig Ep grows by a third

Illustration by Mike Curti (Minnesota '82)

## Growth highlights Sig Ep's fifth decade

The late **Thomas M. Stubbs** (Washington '19) compiled the first 50 years of our history in manuscript form *Journal Editor Dean Woodbeck*. Michigan Tech '58 has edited and revised this material. In this issue we present the fifth installment of our history, covering the years 1941-1950.

Between 1941 and 1949, Sigma Phi Epsilon granted 45 charters. During our second decade, 1931-1940, 11 new chapters were formed.

From 1921-1930, we chartered 19 chapters and, from 1931-1940, 11 new chapters took their places among the brotherhood.

With our 50th Anniversary on the horizon, Sigma Phi Epsilon entered a tumultuous decade. We began the decade with 60 chapters, and would end with 106, but not without World War II taking its toll of chapters and chapter houses.

Within these 10 short years, the Fraternity would see chapters decimated by the war, wrestle with large numbers of veterans returning to colleges and fraternities, face rapid expansion and begin to deal with discrimination.

The first major test arrived sooner than expected. In August 1941, Grand Secretary **William L. "Uncle Billy" Phillips** (Richmond '19) announced his intentions to resign from his office. At that time, Uncle Billy had spent 40 of his 50 years in the service of the Fraternity. **Herb Heilig** (Lawrence '23) took over for Brother Phillips, and changed the name of our chief executive officer from the Grand Secretary to Executive Secretary.

The decade also saw major changes as editor **F. James Barnes**, II (William & Mary '27) reported for active duty in the United States Navy. **John Robinson** (Lawrence '28) thus became the first 20 years as editor of the *Journal*.

The national board of directors met in August 1942, and postponed any further Conclaves for the duration of the war. Grand Secretary Phillips officially retired, and **E. Reed Hunt** (Michigan '19) was elected grand president.

The war filled the Sig Ep *Journal* and Sig Ep's history. Photographs of fires and officers died the pages of the *Journal* as do lists of brothers who marched to Europe.

Civilian life went on for many Americans, and Sig Eps continued to reach prominent positions. Iowans elected **Hourke B. Hickenlooper** (Iowa State '18) governor, and *Life* magazine featured him in an article. **James V. Forrestal** (Harvard '08) was named secretary of defense, and **Ben Hibbs** (Kansas '23) took over as editor of the *Saturday Evening Post*, a position he would hold until 1963.

## Foundation forerunner founded; named for Phillips

Sig Ep's officers met in Richmond in August 1943 to plan for the continuation of active chapter life in the face of discouraging obstacles. Even at schools where Sig Ep groups are strongest, the job of maintaining a nucleus of Sig Ep life is beset with barriers, the greatest of these being lack of manpower.

Also at this meeting, **William W. Hindman, Jr.** (Pennsylvania '40) for nearly traveling secretary, became assistant grand secretary. The William L. Phillips Foundation, forerunner to the Sigma Phi Epsilon Educational Foundation, was created to more effectively solicit and accept gifts. **Robert L. Ryan** (California '25) soon to be grand president, inspired the Phillips Foundation to build an endowment fund and use the fund to grant scholarships and loans to worthy and needy students in American colleges.

In May 1946, Sigma Phi Epsilon sold the headquarters building at 318 West

Franklin Street in Richmond. Several members started a movement to move the headquarters from Richmond to a city in the midwest, such as Chicago or Kansas City. However, considerable opposition soon developed.

Founder **Thomas V. McCull** favored Richmond, as did all of the members of the Detroit Alumni Chapter, who wrote "after all, Fraternity tradition must outweigh any material advantage of a more central location."

**Charles R. Patch** (Colorado '12) was elected grand president, and Uncle Billy Phillips became grand vice president.

In spite of the war, Sigma Phi Epsilon opened one new chapter in 1943 and another in 1944. Wyoming Alpha, at the University of Wyoming, was chartered on May 1, 1943. It operated for 20 years, closing its doors in 1963. New Jersey Beta was installed on January 15, 1944, at Rutgers University. It would be two and a half years before another chapter would be chartered.

## Fraternity names third "c.e.o." in 1944

At their August 1944 meeting, Sigma Phi Epsilon's national board of directors dealt mainly with routine items. They did, however, have one significant surprise: the resignation of Executive Secretary **Herb Heilig**. The Board named **Bill Hindman** as Heilig's replacement.

Also at the 1944 meeting, Uncle Billy Phillips was elected grand president.

The 1944-45 school year brought a period of criticism for fraternities. Special investigations took place in some of the colleges, with teams investigating academic averages of fraternity men, as well as their extracurricular activities. An unfriendly press suggested that fraternity men suffered from a cultural lag, and were guilty of "a failure to adjust their thinking about this new world order." Critics generally approved of fraternity ideals, but criticized the failure of members to carry out these ideals.

Sigma Phi Epsilon, however, sat on the verge of rapid expansion and growth.

## War winds down; growth gears up

As the war in Europe ended, chapters began reporting greatly increased membership. Typical of the chapter letters was one from Alabama Alpha at Auburn University. "Although the war almost eliminated us, we survived the crisis and are 'coming back' from three numbers 1-31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000, 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008, 1009, 1010, 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, 1028, 1029, 1030, 1031, 1032, 1033, 1034, 1035, 1036, 1037, 1038, 1039, 1040, 1041, 1042, 1043, 1044, 1045, 1046, 1047, 1048, 1049, 1050, 1051, 1052, 1053, 1054, 1055, 1056, 1057, 1058, 1059, 1060, 1061, 1062, 1063, 1064, 1065, 1066, 1067, 1068, 1069, 1070, 1071, 1072, 1073, 1074, 1075, 1076, 1077, 1078, 1079, 1080, 1081, 1082, 1083, 1084, 1085, 1086, 1087, 1088, 1089, 1090, 1091, 1092, 1093, 1094, 1095, 1096, 1097, 1098, 1099, 1100, 1101, 1102, 1103, 1104, 1105, 1106, 1107, 1108, 1109, 1110, 1111, 1112, 1113, 1114, 1115, 1116, 1117, 1118, 1119, 1120, 1121, 1122, 1123, 1124, 1125, 1126, 1127, 1128, 1129, 1130, 1131, 1132, 1133, 1134, 1135, 1136, 1137, 1138, 1139, 1140, 1141, 1142, 1143, 1144, 1145, 1146, 1147, 1148, 1149, 1150, 1151, 1152, 1153, 1154, 1155, 1156, 1157, 1158, 1159, 1160, 1161, 1162, 1163, 1164, 1165, 1166, 1167, 1168, 1169, 1170, 1171, 1172, 1173, 1174, 1175, 1176, 1177, 1178, 1179, 1180, 1181, 1182, 1183, 1184, 1185, 1186, 1187, 1188, 1189, 1190, 1191, 1192, 1193, 1194, 1195, 1196, 1197, 1198, 1199, 1200, 1201, 1202, 1203, 1204, 1205, 1206, 1207, 1208, 1209, 1210, 1211, 1212, 1213, 1214, 1215, 1216, 1217, 1218, 1219, 1220, 1221, 1222, 1223, 1224, 1225, 1226, 1227, 1228, 1229, 1230, 1231, 1232, 1233, 1234, 1235, 1236, 1237, 1238, 1239, 1240, 1241, 1242, 1243, 1244, 1245, 1246, 1247, 1248, 1249, 1250, 1251, 1252, 1253, 1254, 1255, 1256, 1257, 1258, 1259, 1260, 1261, 1262, 1263, 1264, 1265, 1266, 1267, 1268, 1269, 1270, 1271, 1272, 1273, 1274, 1275, 1276, 1277, 1278, 1279, 1280, 1281, 1282, 1283, 1284, 1285, 1286, 1287, 1288, 1289, 1290, 1291, 1292, 1293, 1294, 1295, 1296, 1297, 1298, 1299, 1300, 1301, 1302, 1303, 1304, 1305, 1306, 1307, 1308, 1309, 1310, 1311, 1312, 1313, 1314, 1315, continued from page 11

Wallace College, Illinois Beta at the Illinois Institute of Technology, Iowa Delta at Drake University, Illinois Gamma at Monmouth College and Maine Alpha at the University of Maine. All of these chapters continue to operate today.

The 1948-49 academic year saw 11 new chapters granted. These new chapters included Pennsylvania Nu at The College, Ohio Eta at Miami University, Illinois Delta at Bradley University, Florida Gamma at the University of Miami, Florida Delta at Florida Southern College, and Ohio Theta at the University of Cincinnati.

Of these chapters, only Maryland Beta and Florida Gamma have closed their doors.

## Questions raised, but expansion wins out

At the time of the 21st Conclave (September 1949) Sigma Phi Epsilon had 98 active chapters, against 76 at the 20th

Conclave in 1947. The Fraternity had found its most aggressive and dedicated believer in expansion in years — Executive Secretary Bill Hindman. It became necessary to divide Sig Epi's "domain" into 21 districts to help the many chapters conduct their affairs.

A vocal minority appeared in opposition to the prevailing expansionist mood, these brothers felt that expansion took place too rapidly for "proper assimilation and indoctrination." They felt that reaching such large proportions somehow destroyed the fundamental essence and spirit of Sigma Phi Epsilon. These factions' expansion were in the minority, and believed this policy would catapult Sig Epi to the top.

In its between-conclave meeting, the national board of directors elected Larkin Bailey (California '23) as its new grand president. They also decided to acquire a new building and location for the Fraternity headquarters in Richmond, and to hold the 21st Conclave at the Hotel La Salle, on September 6-8, 1949 in Chicago.

Also in September 1948, Sigma Phi

Epsilon issued the fourth edition of the "Pledge Manual," and Dean U.G. Dubach (Oregon State '13) was named national scholarship chairman.

## Conclave questions clause; discrimination dies slow death

Rumblings began as early as February 1949, about the controversial and plaguing question of discrimination in Fraternity membership. In that month's *Journal*, Editor Robson printed an editorial concerning the Phi Kappa Psi chapter at the University of Massachusetts instating a black member. "Discrimination" also appeared on the agenda for discussion at the 21st Conclave, soon to be held in Chicago.

Leaders on both sides of the issue were equally vehement and determined. "The discrimination clauses are a hot target for most fraternity haters," one anti-clause brother said. "They are the chief weapons these haters have with which

to destroy us, there is only one thing to do — move off the spot (we are in) this would avoid any embarrassing situation — such as at Amherst."

Those in favor of keeping the clause included all the surviving founders. At the Conclave, delegates held panel discussions, but the issue would not be resolved until the 26th Conclave, in Washington, D.C. ten years later. There, a majority vote would remove the restrictive clause.

The Conclave came and went, and Sig Epi installed three new chapters during the 1949-50 school year. New chapters were Utah Beta at the University of Utah, Florida Epsilon at Florida State University, and Vermont Gamma at the University of Vermont.

Sig Epi Headquarters moved in April, 1950, to 15 North 6th Street in Richmond. Later in 1950, the Fraternity chartered three chapters, bringing our total of active chapters to 106. These chapters include Ohio Iota at the University of Toledo, Massachusetts Gamma at Boston University, and Ohio Kappa at Bowling Green State University.

## Attorney knows the gridiron law

By Mike Zuhl (Utah '72)

Picture yourself on a leisurely fall afternoon. You are watching your favorite pro football game. It is a critical juncture in the game — late in the 4th quarter. The offensive team is making its move.

The quarterback drops back, the receivers streak downfield. A pass is thrown deep, the receiver and defensive back simultaneously leap for the ball. There is a fierce struggle for the ball and the players collide. A penalty flag is dropped at the point of contact. What's the call — offensive or defensive pass interference?

The official who might make that call is Ben Tompkins, a veteran National Football League official. Tompkins, a former standout athlete, has officiated football games for 26 years, the last 11 in the NFL as a back judge.

Tompkins began officiating following a distinguished athletic career at the University of Texas, where he played

football and baseball in 1949-50. It was while at Texas that he joined Sigma Phi Epsilon. In 1950, at the starting quarterback, he led the highly ranked Longhorns to the Southwest Conference football title.

After that successful football campaign, he traded in his football cleats for baseball spikes and, as starting short stop, led Texas to the national baseball championship. While at Texas, he achieved All Conference and Honorable Mention All American honors in football and baseball.

Tompkins opted for a pro baseball career, signing with the Philadelphia Phillies organization after the 1950 academy year. He played a total of seven years, five in the "AAA League" with Syracuse and Miami. He also managed four years in the Phillies organization.

After his baseball career he completed his education, earning Bachelor and Master Degrees at Texas Wesleyan, and a law degree at Southern Methodist

University. To supplement his income while he was in school, he began to officiate football games.

Tompkins finds the pressure of officiating, and the large crowds, the most appealing aspects of football officiating. He takes special pride in having reached the highest level of officiating by working in the NFL. The great amount of traveling — about 22 weekends a year — is the major drawback of officiating for Tompkins. He believes offensive and defensive pass interference and subterfuge are the most difficult calls to make.

He has had the opportunity to officiate in many important games, highlighted by Super Bowl XIV in 1980. He has also officiated in two "NFC" Championship games. Tompkins mentions the 1971 AFC Championship game as one of the most memorable he has participated in. In that game, he had to make several crucial calls, and says of the game, "It seemed the last team who had the ball scored." Oakland won the game in the

last seconds and snapped Miami's string of three consecutive AFC titles and two Super Bowls.

He believes that officiating has gotten better since he has been an official, but it is criticized more every year. He says he will continue to officiate in the NFL until "it is no longer fun."

Brother Tompkins goal in the remainder of his officiating career is "to feel like I have done a good job when I have walked off the field." His post season experience demonstrates that he is one of the better officials in the league, as those assignments are based on ratings done by supervisors after each game.

Tompkins has pleasant memories of his fraternity experience — a great group of guys. His work and the many weekends taken up with football have prevented him with keeping up with fraternity activities more closely.

Ben Tompkins is currently a practicing attorney and resides in Fort Worth, Texas.

## Alumni News

Alumni News is compiled and edited by John Robson, Editor Emeritus. Sources of Alumni News include: Birth cards for the District Talent Bank. Living Endowment contribution envelopes and Journal change of address/alumni news forms. Any announcements sent separately will also be included.

Deadlines for the Journal are: December 1 (for the February edition), March 1 (May edition), June 1 (September edition), and September 1 (November edition). Please send any Journal announcements to the Editor at Headquarters, P.O. Box 1901, Richmond, Virginia 23215.

# Alumni Chapter Chatter

"Alumni Chapter Chatter" will appear in each issue of the Journal. This feature contains meeting and luncheon schedules, and other news from our alumni chapters. Take a look and see what is going on near you. If you see nothing scheduled, and would like to help, we need you! You can help establish an occasional event meeting-luncheon by contacting Sig Ep Headquarters. If you have matter for the Chatter, send it to: Editor, Sigma Phi Epsilon Headquarters, P.O. Box 1901, Richmond, Virginia 23215.

## Kansas City

Kansas City alumni convene on the second Tuesday of each month, at 6:30 p.m., for dinner at the Berliner Bear re-

staurant. For more information, contact John H. Barker, 615 West 60th Street, Kansas City, Missouri 64413. Home phone — (816) 333-2281, or at the office — (816) 333-3400.

## Lakeland, Florida

The Florida Delta Alumni Corporation is looking for new members. For further information, please contact Jeff Coffman, 20 6th Street, South, Naples, Florida 33940. Home — (813) 262-3610. Or contact Greg Finch at (813) 687-2111.

## New York City

Everyone is welcome to join New York City alumni at the Williams Club, 24 East 39th Street, at noon, the first Mon-

day of each month. J. Tim Biddle says the agenda at each meeting consists of lunch and conversation.

## Richmond

Richmond Sig Eps meet for lunch each Friday at 1:00 p.m. at Thalhimer's Richmond Room, in the Thalhimer's store downtown. The group also holds special events throughout the year. Contact Jack Griffin, 207 Gunby Drive, Richmond, Virginia 23229. Home phone — 288-5322, or 643-9011 at the office.

## Washington, D.C.

The National Capital Alumni Chapter has lunch together the fourth Thursday of each month, except November,

December, July, and August. Lunch takes place at the George Washington University Faculty Club, third floor of the Student Center, 21st & H Streets, in Washington. Look on the marquee for the luncheon room.

## Yountown

We need help from alumni in many cities, just one person to set a regular monthly time for lunch or dinner — no business expected, purely fun. If you can help, find a restaurant, choose a date, and write Sig Ep Headquarters.

# Alumni News

# OFFICIAL SIGMA PHI EPSILON FRATERNITY WATCH

The Sigma Phi Epsilon Fraternity has commissioned the crafting of a Bulova Accutron Quartz wrist watch and pocket watch. The watches are being made available for a limited time only and will never be offered again.

A stunningly detailed and richly dimensional re-creation of the Sigma Phi Epsilon Coat of Arms has been hand-engraved, struck, polished and highlighted to obtain the brilliant 14 kt. gold-finished dial which graces the face of each timepiece. Featuring the advanced Bulova Accutron Quartz movement, the watches never require winding and are guaranteed to keep accurate time to within one minute per year.

The wrist watch is \$180, the pocket watch is \$195 (Virginia residents, add 4% sales tax). Your remittance may be made payable to "Official Sigma Phi Epsilon Watch," or may be charged to American Express, MasterCard, or Visa. Mail orders should be directed to Fraternity Watch, P.O. Box 511, Wayne, PA 19087. For faster service, credit card orders may be placed twenty-four hours a day, seven days a week, by calling toll free 1-800-345-8540, Pennsylvania residents should call 1-800-662-5180.

Your immediate attention is urged since the watches will be shipped in the sequence orders are received. The earliest reservations entered will be guaranteed Christmas delivery.

## Badger a brother

Sig Ep badges are made with 10K yellow gold with 20 crown set pearls. Chapter guards, also shown above, are available in gold plate or 10K yellow gold. Order yours, today, directly from the J. O. Pollack Co.

We also offer lavaliers and rings. The rings are available with the Sigma Phi Epsilon Greek letters or crest mounted on 10K yellow gold or on sterling silver. Also available are rings with stones: ruby, onyx, or spinel. Check the box for "ring information" below, and send it to J. O. Pollack today!

Badge — crown set pearls — 10K yellow gold
